

FOR FUNERAL HOMES

Casket Lifts

Moving with care, between every floor.

Funeral homes move caskets, remains and equipment between floors every day. A Wizard casket lift does it smoothly and safely, with the dignity families expect, at a fraction of the cost of an elevator.

Since 1974
FAMILY-OWNED

36 x 96 in
STANDARD PLATFORM

Up to 1,500 lb
CAPACITY

Built in-house
MADE BY WIZARD

WHY A WIZARD CASKET LIFT

Safe, Dignified Transport Between Floors

Care at every step

No carrying caskets on stairs. A smooth, controlled ride.

Fits older buildings

Built to fit existing funeral homes with tight footprints.

Permits handled

Approval drawings, permits and inspections if needed.

Safer for your staff

Ends the strain and risk of lifting heavy caskets by hand.

Services stay on time

Staff are not slowed down moving caskets and equipment.

Any brand serviced

We maintain and repair casket lifts from any VRC brand.

PREP ROOM TO CHAPEL
Sized for caskets and the equipment that moves them

Built to Your Building

*Every Wizard casket lift is designed
to suit your home and your needs.*
